

DS-Live™

**HELP DESK
INCLUSION
& SUPPORT**

DS Live™ is a web-based application developed in-house by Data Signs Pty Ltd.

It allows you to manage your fleet of Data Signs' products:

- Fleet management
- Variable Message Signs (VMS)
- Speed advisory Signs
- Portable Traffic Lights (PTL)
- Cross hire programming
- Variable Speed Limit Signs (VSLs)
- Video trailer monitoring and programming
- Arrow boards
- Animation drawing tools

DS-Live™ Smartphone App.

DS-Live™ Online Portal.

Data Signs RM-32D Sign Controller.

DS Live™ also allows you to view each product's operational status including GPS location, battery voltage, brightness, any active alarms, message displaying and much more.

Continous improvements and enhancement to the platform are available immediately.

DS-Live™ Features:

- ✓ DS-Live will continually monitor your Sign/s and advise if actions are required.
- ✓ This platform provides an easy to use interface.
- ✓ Real time & fast updates of Messages when fitted with Data Sign SIM cards
- ✓ Streamlined Dashboard & user friendly
